Definition of Cask-Conditioned Beer: Unfiltered, unpasteurized beer brewed from only traditional ingredients, matured and naturally carbonated by a secondary fermentation in the container from which it is manually dispensed - i.e. served without the use of nitrogen or extraneous carbon dioxide. It is ideally served at cellar temperature, which is about 55F - so cool but not chilled.

Beers are available while stocks last, empty casks won't be replaced. Strictly over 21s only, please bring ID to avoid disappointment. Admission is subject to capacity limits, so you're advised to come early as this event will be popular.
